説明			
I would like the ability to customize the list on My Page to allow me to change the columns on the lists.			
journals			
Implemented in r16400 for upcoming 3.4.0.			
I am setting target version to 3.4.0 because I think this issue should appear on Changelog, in order to let everyone know this useful improvement.			
!selectable-columns-on-my-page.png!			
Thanks.
