説明			
mail_handler.rb should trigger events controller_issues_edit_after_save and controller_issues_new_after_save so plugins can handle new issues and comments submitted by email.			
journals			
Not sure how to contribute to the repository, but the attachment should implement this feature.			
When will this be resolved?			
We suffer without it. =(
I can confirm that patch is working. This is major bug!			
Here is another patch: #25261			
related_issues			
relates,New,25261,Patch for bug with call_hook in mail handler			
duplicates,Closed,5023,hook for the mail handler?
