**説明**

This simple patch provides a list of all members of a role grouped by projects.

Tested and working with Redmine 3.2 & 3.3

**journals**

[!http://www.redmine.org/attachments/download/18018/members.jpg!](http://www.redmine.org/attachments/download/18018/members.jpg)

[!http://www.redmine.org/attachments/download/18019/list.jpg!](http://www.redmine.org/attachments/download/18019/list.jpg)

Screenshot of "Members" view introduced by this patch. "eCookbook", "OnlineStore" and "Private child of eCookbook" are project name.

**!role-members-by-project.png!**

I slightly changed the patch.

- Replaced :notice\_file\_not\_found ("The page you were trying to access doesn't exist or has been removed.") with :label\_no\_data ("No data to display") for consistency with other pages.
- Always displays "Members" link to fix horizontal position of sort handle.

before - sort handle horizontal position is not aligned:

!members-link-before.png!

after:

**!members-link-after.png!**

Thank you very much for those fixes !

It seems app/views/roles/members.html.erb is missing in your patch.

Fixed my patch and attached attachment:25491-list-of-role-members-v3.diff. Thank you for pointing it out.

I think this could be a useful addition for instances with bigger number of users, roles and projects. I've tried the patch from note-8 (after manually transplanting it to source:/trunk@16580) for testing, but it seems something is wrong. I get the following error upon request:

Started GET "/roles/3/members" for 192.168.1.3 at 2017-06-02 09:31:47 +0200

Processing by RolesController#members as HTML

Parameters: {"id"=>"3"}

SQL (4.0ms) UPDATE `tokens` SET `tokens`.`updated\_on` = '2017-06-02 09:31:47' WHERE `tokens`.`user\_id` = 1 AND `tokens`.`value` = '<' AND `tokens`.`action` = 'session'

(0.1ms) SELECT MAX(`settings`.`updated\_on`) FROM `settings`

User Load (0.1ms) SELECT `users`.\* FROM `users` WHERE `users`.`type` IN ('User', 'AnonymousUser') AND `users`.`id` = 1 LIMIT 1

Current user: admin (id=1)

Role Load (0.1ms) SELECT `roles`.\* FROM `roles` WHERE `roles`.`id` = 3 LIMIT 1

Member Load (1.2ms) SELECT `members`.\* FROM `members` INNER JOIN `member\_roles` ON `member\_roles`.`member\_id` = `members`.`id` INNER JOIN `roles` ON `roles`.`id` = `member\_roles`.`role\_id` INNER JOIN `users` ON `users`.`id` = `members`.`user\_id` AND `users`.`type` IN ('User', 'AnonymousUser') WHERE `roles`.`id` = 3 GROUP BY `users`, `members`.`id`

Completed 500 Internal Server Error in 22ms (ActiveRecord: 5.6ms)

ActiveRecord::StatementInvalid (Mysql2::Error: Unknown column 'users' in 'group statement': SELECT `members`.\* FROM `members` INNER JOIN `member\_roles` ON `member\_roles`.`member\_id` = `members`.`id` INNER JOIN `roles` ON `roles`.`id` = `member\_roles`.`role\_id` INNER JOIN `users` ON `users`.`id` = `members`.`user\_id` AND `users`.`type` IN ('User', 'AnonymousUser') WHERE `roles`.`id` = 3 GROUP BY `users`, `members`.`id`):

app/controllers/roles\_controller.rb:107:in `members'

lib/redmine/sudo\_mode.rb:63:in `sudo\_mode'

Am I missing something?
