説明

Now
When deleting a category from a table in redmine-url/projects/myproject/settings/categories an popup is triggered:

- Are you sure? [Ok | Cancele]

Expected
It would be nice if the name of category is named, to be sure that the right line of the cathegory was selected:

- Are you sure to remove ? [Ok | Cancele]

This could be worry handy on the large hdpi screens where category name and delete are far a way.
