| <b>説明</b><br>When creating a custom query, and it's set to only be visible to certain roles, as long as a user has that role on any project then the query is visible, even if they don't have that role in the particular project the user is looking at. |                                      |                      |            |
| journals<br>I think it is fixed by #20427.<br><br>Please try updating your Redmine to version 3.0.5 or later.                                                                                                                                              |                                      |                      |            |
