説明

Also if Tracking settings are set to have parent priority independent of children, the context menu in issue query has priorities grayed out.

In fact, when normally editing, the priorities of parent issues are perfectly editable.

This bug affects the context menu only.

journals

I have fixed my installation. Attached the patch. Fortunately it was very simple. I am not a Ruby programmer.

LGTM.

This patch is same with #20992.

Absolutely. The following code is the change made by #20992 (r14671).

Index: app/views/issues/_attributes.html.erb

```

--- app/views/issues/_attributes.html.erb      (revision 14670)
+++ app/views/issues/_attributes.html.erb      (revision 14671)
@@ -11,7 +11,7 @@
<% end %>

<% if @issue.safe_attribute? 'priority_id' %>
-
<%= f.select :priority_id, (@priorities.collect {|p| [p.name, p.id]}, {required => true}, :disabled => !@issue.leaf? %>
+
<%= f.select :priority_id, (@priorities.collect {|p| [p.name, p.id]}, {required => true} %>

<% end %>
```

<% if @issue.safe_attribute? 'assigned_to_id' %>

Committed to the trunk. Thank you for detecting and fixing this issue.

Merged from trunk to 3.4-stable and 3.3-stable.
