説明 The maximum number of issues to be displayed on a My page block is fixed to 10. But sometimes I want to see more issues on blocks. I think it is useful and will increase flexibility if each block has a setting to change the maximum number of issues. !{width: 507px; border: 1px solid #ccc;}.mock-my-page-maximum-number-of-issues@2x.png! The screenshot above is just a mock. I haven't written any codes.
