説明

The default status of tracker is mandatory.
But, a blank is set in "New tracker" page.

I think it is necessary to set initial value.

journals

I often forget to select the default status and see a validation error. It always irritates me.

Setting the target version to 4.1.0.

!{width: 505px; border: 1px solid #ccc;}.new-tracker-form@2x.png!

Committed, thanks.
