説明

Hello,

I need to add time filter/column when the spent time was added/logged. Now is only date *2018-09-25* (in the snapshot), but I want *2018-09-25* and time *13:52* too. The time is in the database, but not showed. When I open atom, the time is there.

This is the output from the atom:

```
<?xml version="1.0" encoding="UTF-8"?>
  Spent time
...
2018-09-24T13:52:48Z
...
```

I need add this column in the csv export too.

Can someone help me?

Thanks
