This patch is pretty simple, it continues the work that has been done to add Issue Queries in My Page blocks.
It does the same for Time Entry queries, with very few modifications.

Time Entry block has been renamed *Time Entry Activity*

Please review it.
Thanks a lot.

journals

Hi Go,

Thanks to have set this issue as a candidate.

* Link to Time Entry query fixed in this patch

Hi,

We can add icons in the block name. Here is a patch to do that.
Needs to add css for new calendar icon somewhere :

.icon-calendar   {   background-image: url(../../images/calendar.png);   }

+It looks like this+ :

!{border: 1px solid}my_page_queries_icons.png!

Hi, I am currently testing a plugin that brings this feature.

I will also provide in this plugin *Time Report Queries*

Hi, the plugin has been published :

http://www.redmine.org/plugins/redmine_queries_for_time_report

So I close this issue.
