**説明**

The attached patch marks the edited notes as "Edited", showing on hover the author and time of the last edit.  

This issue is related to #12388, but I chose to open a new issue because in that ticket the request is to journalise the changes as well which is not implemented by this patch.

journals

The patch works as expected. Very nice. :)

Updated the patch to apply cleanly on the current trunk. Should include this in version:"4.1.0"?

Updated to apply cleanly on the current trunk.

Updated to apply cleanly on the current trunk.

+1 !

New version to apply cleanly.

Its typical also to show number of edits if that is possible.

I agree with this fix.

The reason is that even if it is a correction of my comment, I want it to have a history of changes from the viewpoint of traceability.
