I propose a feature to show gravatar icon in issues list.
I created a patch to display the author, assignee, and last update user icon of Issue, and attach it.

!show-gravatar-icon-in-issues-list.png!

journals

+1
I think that the display is easy to understand.

Thank you!

Personally, i would prefer seeing only the necessary info in the list of issues. This becomes especially important when many columns are observed at once. I don't think the userpics should displayed here by default. At least, it should be controllable in the settings.
