説明 Normally, exporting the "Reports" tab in the "Spent time" section of Redmine mimics the information displayed in Redmine. Specifically the written issue information associated with the “ Issue ” filter. Currently, exporting to CSV leaves out the issue name and only the "Issue #" is being displayed without the rest of the issue information. Is this a known defect? Redmine version 4.0.3.stable Ruby version 2.6.3-p62 (2019-04-16) [x86_64-linux] Rails version 5.2.3 Environment production Database adapter Mysql2 Mailer queue ActiveJob::QueueAdapters::AsyncAdapter Mailer delivery smtp SCM: Subversion 1.10.2 Git 2.18.1 Filesystem Redmine plugins: no plugin installed			
journals This is defined in "application_helper.rb#L255": http://www.redmine.org/projects/redmine/repository/entry/trunk/app/helpers/application_helper.rb#L255 . Looks like the intended behavior. I think you should consider what information is useful in the "Issue column" and decide whether to change it.			
related_issues relates,Closed,19371,Add a new query column for the parent task subject
