説明 In my deployed Redmine, I tried to create a news with more than 65536 characters. And I got this as attached. There should be a constraint in new.rb, such as: <pre>validates_length_of :description, maximum: 65535</pre> even more, in the news/_form.html, <pre>maxlength => 65535</pre> should be added to the textarea. I have attached the patch.
