説明 To recreate it - just create an Issue, create a text file with any name containing "+" (plus sign) e.g. "Test+File.txt" and attach that file to the issue and submit. After that open that issue, and try to download that file. It will show "404 - File or directory not found." error. Then edit the attachments - rename the file to "Test_File.txt", and then try downloading it - it will get downloaded without any issues.			
journals Environment: Redmine version4.0.4.stable Ruby version2.5.5-p157 (2019-03-15) [x64-mingw32] Rails version5.2.3 Environmentproduction Database adapterMysql2 Mailer queueActiveJob::QueueAdapters::AsyncAdapter Mailer deliverysmtp SCM: Subversion1.10.4 Filesystem Redmine plugins: no plugin installed
