**説明**

Do not delete parent issues that have child issues please

--jp--

子チケットがあるチケットを削除した場合、子チケット含めて消えてしまいます  
子チケットがある親チケットを削除できないような制限をかけてもらえませんか？

How about showing a confirmation dialog like the following instead of disallowing to delete a parent issue? In the current versions, a similar dialog is shown when deleting an issue which has spent time logs.

Sounds like a great idea and prevents the user from unforeseen side effects.

Go Maeda,good!

I would like to request the same way
