説明
 You cannot use the following filters in Gantt if Issue tracking module is disabled for the project. But other issue related filters such as Tracker, Priority, Subject, and Description can be used.

- Author
- Assignee
- Target version
- Category
- Watcher
- Updated by
- Last updated by
- Subproject
- All filters in "Assignee" group
- All filters in "Project" group
- All filters in "Relations" group

When you try to add one of the above filters, Redmine returns "403 Forbidden" response.

```
Started GET "/queries/filter?project_id=1&type=IssueQuery&name=author_id" for 127.0.0.1 at 2019-10-18 17:34:50 +0900
Processing by QueriesController#filter as JSON
Parameters: {"project_id"=>"1", "type"=>"IssueQuery", "name"=>"author_id"}
