I am not sure why nil is passed to @<=>@, but I think the following patch should fix the problem.			
<pre>diff --git a/app/models/enumeration.rb b/app/models/enumeration.rb index 4710fde81..a8ca08726 100644 --- a/app/models/enumeration.rb +++ b/app/models/enumeration.rb @@ -90,6 +90,7 @@ class Enumeration < ActiveRecord::Base end def <=>(enumeration) + return -1 if enumeration.nil? position <=> enumeration.position end</pre>
