説明

Current "Subproject of" filter implementation allows to chose only "is" operator what does not allow to show entire project hierarchy. This is important for multi-project approach. Please add "contains".

Environment:

```

Redmine version      4.1.0.stable
Ruby version         2.5.7-p206 (2019-10-01) [x64-mingw32]
Rails version        5.2.4.1
Environment          production
Database adapter     Mysql2
Mailer queue         ActiveSupport::QueueAdapters::AsyncAdapter
Mailer delivery      smtp

```

SCM:

```

Subversion           1.11.1
Git                  2.19.1
Filesystem

```

Redmine plugins:

```
no plugin installed
```
