h1. What's the problem?

If I link a group and a project the "remove user" icon disappears from the members tab in the configuration of the project.

h2. Current workflow

To delete a user (member of a group) from a project (whose group has been previously added to the project) I go to Administration -> Users -> User Id -> Projects -> Delete specific project

h2. What do I expect?

To be able to remove a user (member of a group) from a project (with that group added to the list of members).

h2. Redmine configuration

```
Environment:
    Redmine    version                        4.1.1.devel
    Ruby    version                            2.5.5-p157   (2019-03-15)   [x86_64-linux-gnu]
    Rails    version                         5.2.4.2
    Environment                                production
    Database    adapter                    PostgreSQL
    Mailer    queue                           ActiveJob::QueueAdapters::AsyncAdapter
    Mailer    delivery                       smtp
SCM:
    Git                                                2.20.1
    Filesystem
Redmine    plugins:
    redmine_agile                              1.5.3
    redmine_dashboard                          2.7.1
    redmine_datetime_custom_field      1.0.1
    redmine_indicator                          0.2.13
    redmine_issue_evm                          5.3.4
    redmine_issues_tree                       0.0.14
    redmine_mentions                           0.1.1
    redmine_omniauth_google             0.0.1
    redmine_rtmaterial                        0.1.8
    responsive_redmine_tables             0.1.7
