説明			
When I try to add a new group (groups/new) I get an Error 500 with the following log message			
Completed 500 Internal Server Error in 15ms (ActiveRecord: 9.7ms) ActiveRecord::NotNullViolation (Mysql2::Error: Field 'mail_notification' doesn't have a default value: INSERT INTO `users` , `hashed_password`, `firstname`, `lastname`, `created_on`, `updated_on`, `type`) VALUES ("", "", "", 'Group name', 2020-11-12 18:55:38', '2020-11-12 18:55:38', 'Group')):			
Details regarding Redmine			
Environment:			
Redmine version		4.1.1.stable	
Ruby version		2.5.5-p157 (2019-03-15)	[x86_64-linux-gnu]
Rails version		5.2.4.2	
Environment		production	
Database adapter		Mysql2	
Any suggestions on how to get this fixed?			
journals			
Setting.default_notification_option is probably blank for some reason? that should never happen			
take a look if the default value is present in your database and config/settings.yml			
any 3rd party plugins?			
Code in settings.yml			
default_notification_option: default: 'only_my_events'			
Full redmine info			
Environment:			
Redmine version		4.1.1.stable	
Ruby version		2.5.5-p157 (2019-03-15)	[x86_64-linux-gnu]
Rails version		5.2.4.2	
Environment		production	
Database adapter		Mysql2	
Mailer queue		ActiveJob::QueueAdapters::AsyncAdapter	
Mailer delivery		smtp	
SCM:			

```
Git 2.20.1
Filesystem
Redmine plugins:
additional 3.0.1-master
redmine_banner 0.3.4
redmine_slack 0.2
redmine_spent_time 4.1.0
view_customize 2.7.0
```

----- what is the result of

```
rails c p
Setting.default_notification_option
=>
?
```

try it without plugins

```
Loading production environment (Rails 5.2.4.2)
Setting.default_notification_option
=> "only_my_events"
```

Should be ok
