<b>説明</b>			
<p>Currently, there is no way to see the latest posts in the forum module. The only way is to look at the activity page.</p> <p>I suggest displaying "Latest messages" on the forum page, like "Latest revisions" on the repository page. This allows users to easily check recent posts and makes the forum more user-friendly.</p> <p>!{width: 1024px; border: 1px solid grey;}latest-messages.png!</p>			
journals			
<p>+1.</p> <p>It is expected that communication will be more active, with more opportunities to display new messages.</p> <p>I made a patch to display the latest messages and posted it.</p>
