説明 Redmine has its own html formatter for SimpleCow. Would be great to see "default generated report": https://github.com/simplecov-ruby/simplecov-html/blob/3a30b47964e74ac810edc02629d420fa1cb1bc12/lib/simplecov-html.rb#L31 in console log for LOC coverage. It's useful for collecting metrics in gitlab.
