**説明**

<https://www.redmine.org/projects/redmine/wiki/RusRedmineProjectSettings/13> page expose strange information that is completely replaced the old correct one. See diff  
[https://www.redmine.org/projects/redmine/wiki/RusRedmineProjectSettings/diff?utf8=%E2%9C%93&version=13&version\\_from=12&commit=View+differences](https://www.redmine.org/projects/redmine/wiki/RusRedmineProjectSettings/diff?utf8=%E2%9C%93&version=13&version_from=12&commit=View+differences)

It looks as accidental overwriting and need to be rolled back. Though logins and passwords exposed on the page at the moment obviously are compromised and need to be reset (or owner of this system should be informed).

**journals**

Thank you for reporting the problem. I have just reverted the change.

Should I mark issue as resolved or you will do it after some other activity?

Sorry, I forgot to close this issue.
